

## **IN THE SPECIFICATION**

Please amend the Specification as shown below, in which deleted terms are shown with strikethrough and added terms are shown with underscoring.

Please replace paragraph [055] with the following amended paragraph:

[055] The pump casing 20 is rotatably supported on the transmission output shaft 6 through a bearing 8a, and is supported by another bearing 8b to be rotatable relative to the transmission housing HSG. The pump swash plate member 21 is supported by bearings ~~21a~~ 24 and 21b to be rotatable about a swash plate axis, inclined at the predetermined angle relative to the pump casing 20. The pump cylinder 22 is supported by a bearing 22c to be coaxial with, and rotatable relative to the pump casing 20.

Please replace paragraph [059] with the following amended paragraph:

[059] The hydraulic motor M also includes a motor swash plate member 31 rotatably supported inside the motor pivot member 35 by bearings ~~31a~~ 34 and 31b, and a plurality of motor plungers 33 slidably disposed in a plurality of motor plunger holes 32a, and formed to extend in the axial direction in an annular layout surrounding the center axis of the motor cylinder 32. In addition, the motor cylinder 32 is rotatably supported, at an outer circumferential portion thereof, on the motor casing 30 through a bearing 32c.
